Enjoy the attention as you are transported (vertically) in either Elvira the black 1967 air conditioned Cadillac or Morticia our grey 1962 Cadillac with stunning snow leopard interior.

This is the history they don't put in the text books. This is the Sydney they don't put in the guide books. And this is the tour that shines the spotlight onto the tantalising skeletons in Sydney's closet. Sydney's underbelly revealed!

Sydney is a city that began as a poorly planned solution to Britain's overcrowded prisons and it was only by good luck it survived its formative years.

Now it has grown into the best place in the world to live and the world's most desired tourist destination. But what a past our city has! Exciting and extraordinary, ghostly and ghostly, uplifting and downtrodden.

Come with Destiny Tours Sydney to discover this undiscovered side of Sydney in a fun filled tour experience you'll never forget.

DESTINY TOURS

Sydney's only offbeat tours in a classic Cadillac hearse
"Don't leave the best ride of your life 'til last"

Our informative and entertaining commentary will tell you about the famous and the infamous who shaped the history of Sydney, and the scandals and secrets that have spiced our lives since the very first days of European settlement.

Here's a taste of what you can expect with Destiny Tours Sydney:

You'll see the former site of Sydney's notorious Blue Light VD clinic, now housing an exclusive restaurant. Should we tell the diners inside?

We'll show you the hotel with the forbidding cellars where drunken sailors were shanghaied through secret tunnels to wake up later on board a sailing ship bound for who knows where. Maybe the resident female ghost who walks the stairs at night knows....

We'll show you the former convict-built gaol (see their markings still in the sandstone) where the gallows has been turned into a toilet block, the morgue is now an electricity sub-station, the cells are classrooms and the women's cell block is now a theatre. Hear the story of the hideously ugly and hated hangman who despatched over 400 offenders, including 70 at this place. Whatever you do, don't wander around here alone at night.

Check out the street life on Sydney's "Rodeo Drive" and watch those heads turn to check out the hearse! What a giggle, you'd think they've never seen a hearse drive down that street before, or maybe it's because they're not expecting to see live ones in the back! Hey wasn't that....? You know who I mean!

Explore the back alleys of world famous Kings Cross. Look at all those ladies on the main street waiting around to meet their friends.

Did you know that the cost of Sydney's internationally known Harbour Bridge also included 16 lives? One construction worker's body was found standing upright in the mud at the bottom of the harbour! And if you think that's bizarre, wait 'til you hear what happened to some of the other workmen.

We'll show you the impressive, sandstone Victoria Barracks and learn about its resident ghosts, including the private who hanged himself in the barracks prison while awaiting court martial for murdering his sergeant.

We'll point out where the 23 explorers of Bridge Street live - silent sentinels in their carved sandstone niches high above the busy traffic - wondering why the remaining niches are still empty.

We'll take you down the elegant, tree-lined length of Victoria Street saved from high rise development, and a legacy to one of Sydney's greatest unsolved murder mysteries.

See Sydney's best-known brothel hiding behind dense shrubbery because they don't have a discreet rear entrance. Sorry, it's not a stop-off, however we will stop for an optional inside look at Sydney's leading bondage parlour! (Adults only). See a naughty side of Sydney that you wouldn't normally get to see.

You'll hear of the 3 remarkable women who ruled Sydney's underworld in the 30s and 40s. Between them they had 384 convictions. See where they lived, fought and drank.

We'll give you a feeling for the culture of Victorian-era Sydney at the impressive, gothic-style Mortuary Station, the 1869 purpose-built train station for the recently departed on their way to Rookwood Necropolis (city of the dead).

See where the Beatles stayed in 1964; see an ex-Prime Minister's haunted house; crime scenes, sites of suicide, sex, suffering and scandal, homes of the rich and famous.

And we have heaps more to intrigue and entertain you as we take you on a trip through Sydney's brutal, bizarre and bloody past.

So come and join us and your first ride in a hearse won't be your last! All the booking details are on the

Who feels like a quick trip through the streets where bubonic plague broke out in 1900? Oops, was that a rat we just saw?

Cruise down beautiful Macquarie St. Historic yes, but also our most haunted, the buildings full of tormented souls (and we're not referring to the living ones in
